Section & Elevation

The Bioretention Tree Guard and Grate is designed to protect trees as a part of the Water Sensitive Urban Design (WSUD) tree pit used within selected streets and laneways of the Central City and Docklands.

The tree guard and grate is fabricated from mild steel and then powder coated Dulux 'Silver Glow Pearl' 84623.

For fabrication & installation drawings, refer to City of Melbourne, City Design drawings; Project No: 902431-WSUD Tree pits and guard and grate
